

New Jersey has made great advancements in protecting its citizens from unwanted solicitations. As someone who has been targeted by solicitors, I feel the pain of coming home to an answering machine that's blinking full, and then later finding out that a family member needed to leave a message regarding emergencies but couldn't because the machine was full. I say, stop the unwanted calls. Some days you get several calls from the same solicitors! Protect the DO NOT CALL rules and Protect my rights!
